**EASE OF INSTALLATION**

Board system designed for quick, straightforward installation with no visible fasteners.

**50-YEAR WARRANTY**

On wood composite boards.

**LOW MAINTENANCE REQUIREMENTS**

No painting, oiling or sanding required, year after year.

## FINISHING TRIMS: SIMPLIFIED INSTALLATION FOR ALL OUR COVERINGS

Easy to install, our wall cladding trims are available in 9 colors or in black powder coated aluminum, allowing perfect integration with all your projects. Composed of two elements, they combine aesthetics and functionality. The front trim, made of wood composite, matches the color of the cladding for a harmonious finish. The back trim, in pre-drilled aluminum, ensures fast, efficient installation. Thanks to their intuitive fastening system, these mouldings transform your spaces with style and simplicity.

- 1 Single starter moulding - horizontal installation
- 2 Double starter moulding - horizontal installation
- 3 Single starter moulding - vertical installation
- 4 Double starter moulding - vertical installation

- 5 J-moulding
- 6 J-moulding - upside down
- 7 Transition moulding - vertical installation
- 8 Transition moulding - horizontal installation

- 9 H-moulding
- 10 Interior corner moulding
- 11 Exterior corner moulding

## SCREWS & BITS FOR CLADDING

Securely fasten your cladding boards and trims using our wood framing screw or our self-drilling screw designed for steel framing. Made of stainless steel, they are suitable for both indoor and outdoor installations. Their full thread design ensures excellent shear resistance and optimal durability.

- Torx noT15 countersunk head screw #6, 1 1/2"
- Stainless steel
- Pack of 90, 450, 900 or 6500 units
- 2" Torx T15 drill bits included in each pack

- Self-drilling metal screws
- Torx noT15 countersunk head screw #6, 1 1/2"
- Stainless steel
- Pack of 450 units
- 2" Torx T15 drill bits included in each pack

## TOGETHER, LET'S BUILD A MORE SUSTAINABLE FUTURE

The FiberWood product line offers a concrete environmental solution by transforming waste into durable materials. Made from 90% recycled materials (wood particles and plastic), our products help preserve forest resources and are fully recyclable, supporting a circular economy.
