

WALL CLADDING COMPOSITE CO-EXTRUSION

FiberWood

ROYAL EDITION

IMPERIAL EDITION

Get ready to be enchanted by the undeniable charm and appeal of the ROYAL and IMPERIAL editions, offering fluted-style siding. These elegant and refined siding styles will bring a touch of classic sophistication to your home, condo, or cottage.

CLASSIC EDITION

The CLASSIC edition offers you much more than a simple wood imitation. The co-extrusion composite wood of Fibewood is a perfect fusion of the natural beauty of wood and unmatched quality and durability performance. With the CLASSIC edition, your outdoor or indoor space will transform into a haven of tranquility, where the splendor of wood blends seamlessly with the convenience and performance of composite.

BOARD & BATTEN EDITION

Immerse yourself in timeless elegance with the BOARD AND BATTEN edition, a wall covering that transcends the boundaries of traditional design. But this wall covering goes beyond its captivating aesthetics. It is crafted, like all our other composite wood profiles, with cutting-edge engineering to provide exceptional resistance to outdoor elements, moisture, and temperature changes. Its remarkable durability ensures a flawless appearance over time, without the need for tedious maintenance.

INSTALLATION MOLDINGS FOR WALL CLADDING

Discover our range of ultra-easy-to-install trims, now available in 7 colors. Thanks to their simple and quick fixing system, you'll be able to complete all your wall covering projects in the blink of an eye. Each trim is composed of two pieces, the front trim and the back trim. The front trim is made from co-extruded composite that matches the cladding board's color, ensuring a smooth finish. The back trim is made from aluminum and is pre-drilled with holes to facilitate installation. Each aluminum piece is coated with black powder to prevent reflection. Add a touch of style with ease using our range of trims.

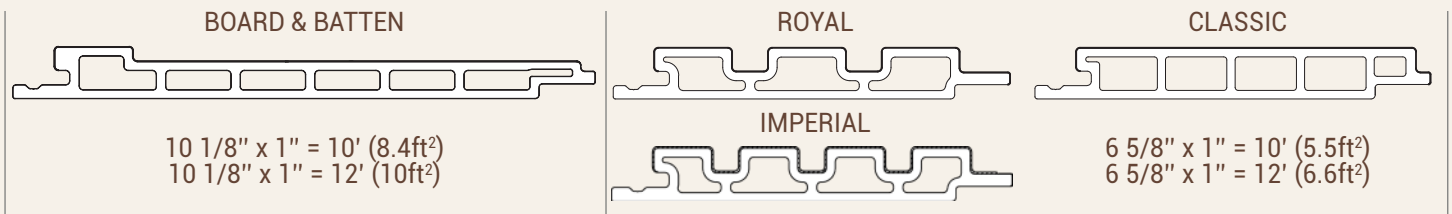

The front trims are also available in matte black finished aluminum.

- 1 J trim
- 2 Single starting trim
- 3 Double starting trim
- 4 Transition trim for vertical installation

- 5 H trim
- 6 External corner trim
- 7 Internal corner trim

WALL CLADDING BOARDS

SCREW & DRILL FOR WALL CLADDING

Secure all your cladding boards and moldings using either our wood framing screws or self-drilling metal screws for steel framing. Made of stainless steel, they are suitable for both indoor and outdoor installations. Their full-thread design ensures shear strength, while their steel body adds durability.

- #6 Flat Torx Head no. T15 Screw, 1 1/2"
- Stainless steel
- Available in packs of 90, 450, or 900 units
- 2" T15 Torx Drill Bits included in each pack

- Self-drilling metal screws
- #6 Flat Torx Head no. T15 Screw, 1 1/2"
- Stainless steel
- Available in packs of 450 units
- 2" T15 Torx Drill Bits included in each pack

OPTIMAL PROTECTION PROSHIELD PREMIUM® WEATHERED COLOR

Our FIBERWOOD composite boards from FIBERWOOD feature excellent PROSHIELD PREMIUM® protection. This protective layer covers all three visible sides of the boards, providing ultimate protection against stains, impacts, insects, scratches, and UV rays that cause discoloration. Our PROSHIELD PREMIUM® protection allows for controlled natural discoloration of the boards in the first few months of installation in their natural environment, and then maintains their beautiful natural color throughout their lifespan, with a 30-year warranty.

A 100% ECO-FRIENDLY PRODUCT

According to statistics, approximately 1 million plastic bottles are consumed every minute worldwide. Our FIBERWOOD composite boards offer a concrete solution to this critical problem.

Made from 90% recycled wood particles and plastic, our FIBERWOOD composite boards are environmentally friendly. Each board helps reduce plastic waste and preserve forest resources.

This eco-friendly product is 100% recyclable. After approximately 30 years of use, the FIBERWOOD board can be transformed into new materials, avoiding its accumulation in landfills. Choose FIBERWOOD for a more environmentally responsible lifestyle. Together, let's build a better future, one board at a time.
